

**Permission for Minors at the National Superconducting Cyclotron Laboratory (NSCL) and the Facility for Rare Isotope Beams (FRIB)**

NSCL/FRIB and its visitors are obligated to follow federal and state regulations concerning safety and export control. NSCL and FRIB contain some areas that are restricted for safety reasons. It is the laboratory's policy that visitors under the age of 18 years who enter restricted areas have parental or guardian permission to do so.

We are obligated to instruct visitors about potential safety hazards and such things as limits on radiation exposure. However, it is expected that there will be no undue hazards or risks present where visitors are allowed access.

To give permission, please complete the bottom of this letter, including your signature, your relationship to the minor, and the date.

DO NOT mail or fax this permission! The minor (or responsible adult) should bring it along when visiting NSCL and FRIB.

\_\_\_\_\_ has my permission to visit the restricted  
(Minor's name)  
areas of the laboratory on \_\_\_\_\_.  
(date)

I also certify that this minor is not a citizen/resident of Cuba, Iran, North Korea, Sudan or Syria
