

Session VI

Chaired by Robert Tribble

Frank Timmes - Intersections with Planets and Astro Biology

Lunch in hotel lobby-atrium 12:00-1:30. Session 6 starts 1:30 w/ "Intersections with Planets and Astro Biology" from Frank Timmes #NucATown

Nuc Astro Town 2012

Frank Timmes: Connections bw nuclear astrophysics and exoplanets #NucATown

Juan Manfredi

If these exoplanets are waterworlds, will Kevin Costner be there? #NucATown

Zach Meisel

Dennis McNabb - Opportunities at NIF

Michael Wiescher - The Roles of Centers

Up now: Michael Wiescher on "Centers: Definition, expectations, successes, failures?, & JINA" #NucATown

Nuc Astro Town 2012

When JINA started there was very little collaboration between nuclear physics and astronomy. Now there's a lot. #NucATown

Justin Browne

In JINA & interested in participating in continuing science discussions? Subscribe to the forum on the JINA Ning page & ask a Q! #NucATown

Zach Meisel

Richard Cyburt - Data

"Data" by Richard Cyburt, or "The Last Word"
#NucATown #NucATown

Nuc Astro Town 2012

NuGrid simulation data, yields available at nugridstars.org #nucatown

Falk Herwig

#NucATown we need to include p-process experimental rates into [reaclib](http://reaclib.org)

Anna Simon

#NucATown is it planned to include stellar weak rates in [jinalib](http://jinalib.org) ?

Marco Pignatari
