

# Working Group Reports and Wrap Up

**Jack Winkelbauer**

Working groups, please bring your summaries to the front of the room during the coffee break. #NucATown

**Nuc Astro Town 2012**

Time for 5 minute working group summaries, a.k.a. The Lightning Round #NucATown

**Artemis Spyrou**

#NucATown FRIB highest nuclear physics priority of nuclear astrophysics community

**Edward Brown**

#NucATown #NucAThery connecting nuclear theory & astrophysics theory with experiments & observations is the future!

**Falk Herwig**

#nucatown AAS now has a new Division on Laboratory Astrophysics which is a good way for nuclear astrophysics to get closer to astronomy.

Masterful simultaneous talk/tweet by @nworbde !

#NucATown

Zach Meisel

Frank Timmes now summarizing #AstroComputing working group findings. #NucATown

Christian D. Ott

In case you ever wanted to run your own core collapse simulation. Go to [stellarcollapse.org](http://stellarcollapse.org) and get GR1D!  
#NucATown
